(Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)			

14. DESCRIPTION OF AMENDMENT/MODIFICATION (cont'd)

THE **NETCENTS SOLICITATION** IS HEREBY **AMENDED** AS FOLLOWS:

A. The following clause is changed in Section M:

M003 BASIS FOR CONTRACT AWARD (Oct 2003)

This is a best value source selection conducted in accordance with AFFARS 5315.3 Source Selection. The Government intends to make up to seven contract awards - four awards based on full and open competition and three awards set aside for small business concerns. Evaluation and award of up to seven (7) contract awards under the NETCENTS program will be accomplished as follows: The most highly rated proposals will be determined and considered for award of the full and open contracts first. All remaining small business best value offers will then be considered for the set-aside portion of the solicitation. In the event that three (3) small business best value offers are not found for the set-aside portion of the solicitation, the small business set-aside will be dissolved in part or in full, as necessary. Proposals will be evaluated based on your submittal. The Government will select the best value overall offer(s), based upon an integrated assessment of Mission Capability, Proposal Risk, Past Performance and Cost/Price. This may result in awards to higher rated, higher priced offerors where the decision is consistent with the evaluation factors and the Source Selection Authority (SSA) reasonably determines that the technical superiority and/or overall business approach and/or superior past performance of the higher priced offer(s) outweighs the cost difference. To arrive at a source selection decision, the SSA will make an integrated assessment of the evaluation factors and subfactors described below. While the Government source selection evaluation team and the SSA will strive for maximum objectivity, the source selection process, by its nature, is subjective, and therefore, professional judgment is implicit throughout the entire process. For a proposal to result in an awardable contract, it must at least meet all PWS technical requirements, conform to all required terms and conditions, and include all required certifications. Other considerations for award include contractor responsibility (IAW FAR 9.1) and mitigation of any potential organizational conflict of interest (FAR 9.5). The Government reserves the right to award without discussions.

<end of clause>
